

All We Need is Love!

“All We Need Is Love” was a Variety Show put together by artists in Taiwan. These artists are all from different countries, with a common goal, “To make a difference!” Artists with the belief that children are resilient, and if given a chance, they can overcome almost anything. The SOS Children’s Villages was our charity of choice because it is an organization that gives children that Hope. It gives children security. It gives children an opportunity to be a part of a family. Through years of dedication and wonderful work, the SOS is steered by people who care. People who are driven by love and through them, these children are able to experience love again.

As organizer of this event, I have learnt many lessons. I have learnt that there are many beautiful, wonderful, and giving souls out there. All it took, was for me to throw the idea of the event to my friends, and in no time, I had enough artists to have a show. Things almost fell into place too easily. My best friend always says, when you are doing the right thing, God’s Hand guides you through it. This was shown to us on the day of the show when our sound and light engineers didn’t pitch up. No one had experience with any of the equipment, but in no time everyone worked together to produce the most amazing show ever. I had what Donald Trump would call the “Dream Team”.

To all my friends who helped,
Thank You!

To all the people who are from the SOS Children’s Village,
Thank You!

To all volunteers,
Thank You!

All you have done, and all you are doing is bringing a smile to a child’s face.
As someone once said,

“To Save a Child,
Is to Save the World”
